

*Thanks for choosing us!*

Wait 1hr to remove bandage & wash tattoo with an antibacterial soap. Let tattoo air dry for 10-15 min. or dab with a paper towel (ink may dab off).

Apply a small amount of Aquatant or Aquaphor to the tattoo so that it barely shines. Apply ointment 3-5 X a day or as needed & never re-bandage tattoo. Keep tattoo out of direct sunlight & no long durations of water. After you shower, pat dry with a paper towel. If your tattoo scabs, DO NOT PICK IT.

Itching is normal, you can gently tap it with a clean hand. Once the tattoo starts peeling switch to an unscented lotion.

Please call with any questions 941-979-9960.

*Please leave us a google review via search or scan the code on the right with your phone!*
